  Specifications vary depending on model.

  Shared system memory may be allocated to support graphics, depending on system memory size and other factors. Actual system memory available to the operating system will be reduced by any memory used by the graphics solution and resources required by the operating system will be reduced by any memory used by the graphics solution and resources required by the operating environment.

  Memory speed may vary, depending on the CPU, chipset or memory fitted
  A 64-bit operating system is required to enjoy the ultimate performance of 4 GB or higher memory.

  All brands and product names mentioned herein include trademarks of their respective companies and are used solely to describe or identify the products.

  Not all features indicated are supported on all SKUs.

  10. Gis 1 billion bytes. Actual formatted capacity is less and may vary depending on preloaded materials and operating environment. Acer Recovery Management uses a portion of the stated hard disk capacity as dedicated backup space.

  Minor variations in system dimensions are possible due to the manufacturing process.

  Weight may vary depending on product configuration, vendor components, manufacturing variability, and selected options.

- 10. Listed battery life is based on testing using video playback. The test clip loops and continues to run, without interruption or any other inputs, until the battery is drained. Stated battery life is for comparison purpose only. Actual battery life varies by model, configuration, applications, video chip format and features used. A battery's maximum capacity decreases with time and use. Battery life test configuration: 12th Gen Intel® Core™13, Intel® UHD Graphics, FHD, SSD only, 868 of DDR4 memory. Battery life test condition: CLD brightness 150 nits, connected headphones, WLAN off, Bluetooth off and Better Battery Mode on.

  11. Listed battery life is based on testing using Web browsing. The test clip loops the loading of 50 selected websites using Microsoft Edge every 30 seconds, until the battery is drained. Stated battery life is for comparison purpose only. Actual battery life varies by model, configuration, applications, video chip format and features used. A battery's maximum capacity decreases with time and use. Battery life test confliction: 12th Gen Intel® Core™13, Intel® UHD Graphics, FHD, SSD only, 8GB of DDR4 memory. Battery life test condition: 100 nits LCD brightness, 50% speaker volume, WLAN on. Bluetooth on, no WM direct Internet connection.

  12. Actual battery life may vary considerably by specifications, depending on product model, configuration, applications, power management settings, operating conditions, and features utilized. Performance variation also arises based on components in use, which includes but is not limited to the processor, RAM capacity, socrage, display and resolution, etc.

  13. Bundled software may vary depending on hardware configuration, OS and regional availability.
